

# Judo Canada and Checklick

Automates the hard parts of running a judo club.

## Paperless judo evaluation checklists

Evaluating your judokas used to be a pain. Checklick shows you a **simple list of all your judokas**, and lets you update their judo checklists with a few clicks.

## Print anything, quickly

Individual Judo Canada certificates, progress reports and checklists can be **mass-printed** in a few clicks.

## Communicate like a pro

Checklick lets you **easily send emails to groups of judokas**. With one click, attach each judoka's latest judo checklist or progress report, or even include a link to their online profile.

## Evaluate faster

Save your sanity. Checklick lets you **group-edit evaluation checklists**. Click a skill checkbox once and Checklick will update all the judokas you preselect - perfect for when a group demonstrates the same skills at the same time.

## Flexible online course registration

Imagine never having to type in data from paper sign-up forms again. Checklick lets judokas **register for all of your courses online**. Once you setup your courses, Checklick will provide you with a simple web link to your online registration form. Checklick's online registration lets you offer many types of discounts, and also accepts multiple registrations in one transaction. Contact us to activate online registration.

## Separate accounts for your instructors

Checklick lets you **create separate accounts** for all of your instructors, letting them evaluate skills, create progress reports and issue certificates. Only you are able to add judokas, change course details and view payment records.

## Easy one-page setup

Adding courses, adding instructors, setting up online registration - everything you need to setup your club is **all on one page**.

## Autoload judoka information

Once a judoka has an account, their information and evaluations will follow them everywhere, even if they switch to a different club.

## Import Your Own Data

Upload all your registration data **in one spreadsheet**. Just upload data using Checklick's spreadsheet template, and Checklick will automatically create new judoka accounts, courses, and registrations. **New for 2014**

## Merge Duplicate Accounts

Does your judoka list have duplicates? Checklick can now **merge duplicate judoka accounts** into a new single account. Checklick compares information from the duplicate accounts, and keeps the most recent. **New for 2014**
